**Artist Statement:** There are so many ways to see and find joy in life as an artist. The journey means wonderful new discoveries at each new turn to share forward. Even in the busiest times of life, full of child rearing, job working, cooking, grocery shopping, walking dogs, as a visual person, extraordinary moments can be found in the flash of light coming through the trees at days end. I have never stopped seeing, learning, or being amazed and that is what keep me going and enjoying the ever-changing world around all of us found through a camera lens, paint brush or well-chosen word. Thank you, Ames Porter
